Lightning Mobility Base

The LIGHTNING is a lightweight, highly functional Pediatric Mobility Base designed with the recreational look that compliments today's lifestyle. The LIGHTNING is an innovative vehicle constructed to be super 'tuff' and is especially convenient for transporting and storing due to it's easy to operate "Stand & Fold" feature. For function, performance and durability in a beautiful package... Nothing Beats The LIGHTNING!

LIGHTNING FEATURES:

Heavy Duty Upholstery includes moldable 'stays'

Seat Depth Adjustable

Front Rigging: Swing Away, Flip-Up Adjusts in the following areas- extension, fore & aft, angle & lateral

Storage Basket

7000 Series Aluminum is used for aircraft structural members because of its superb strength to weight properties.

Offset Arms provide additional width

Folding Actuator

Push Handle (for pushing & control of chair)

Locking Strap

Carrying Handle

Wheel Locks (operates both sides with single actuation)

PORTABILITY- The LIGHTNING folds into a convenient package and will fit most vehicles!

Accessories Available for the Lightning

SE Standard Accessories of the SE Model. Upholstery Color Choices: **NAVY BLUE**  **RED GLOW** 

POSITIONING RIGGINGS:

The Positioning Footrests will easily adjust between 1" & 17" extension in 1" increments. The riggings remove easily & the Positioning Pin is tethered to prevent loss.

Footplate incorporates 50 degrees of adjustable angle for Dorsa & Plantar Flexion, & adjusts laterally over a 2" range.

Footplate incorporates Fore & Aft adjustment over a 1.5" range.

LIGHTNING CRASH TESTING:

Transportation- The Lightning meets the requirements specified in 5.3 of section 19 of Ansi/Resna WC/Vol.1 prior to May 2002.

Point Of Impact- The Lightning is so tough that it exhibits virtually no distortion at point of impact.

A RANGE OF OPTIONS & ACCESSORIES AVAILABLE.

AVAILABLE MODELS LT11, LT11SE, LT14, LT14SE, LT16 & LT16SE.
