2 Motors Hand Control Foot Control

The CA160 is a Two Section Bo-Bath Table with a LARGE TABLE TOP of TWO Different Width to choose from – 1 or 1.2 meter (39.37" or 47.24" inches). The TWIN PILLARS of CA160 Bo-Bath Concept 2 are further re-enforced by Dual-Side Support Beams along side. The whole table is strengthened even further to provide patients with greater stability and support.

The table can be lowered to a low 46cm (18" inches) off the ground which makes a sturdy neurological platform for patients to easily get ON or OFF the table.

The CA160 Bo-Bath Concept 2 Table can easily hold and support a patient's weight of up to 250kgs / 551lbs.

2 Motorized Actuators :

- 1st Motor controls the Height of Table
- 2nd Motor controls the Back Rest

Other Features:

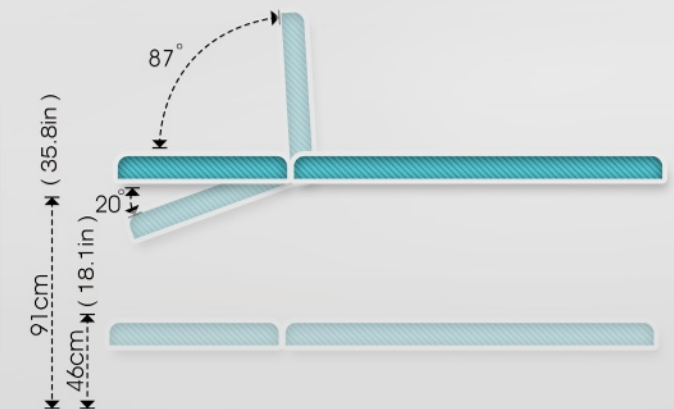

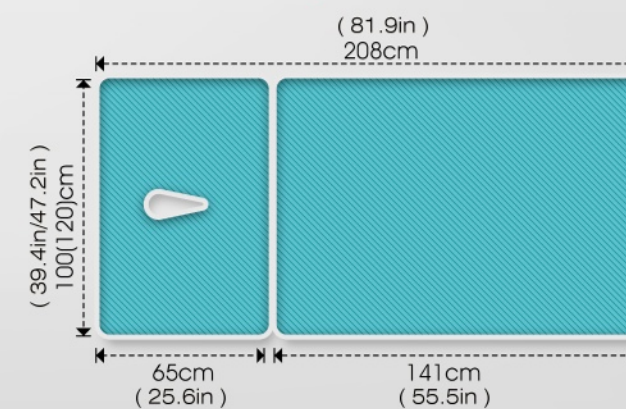

- Twin Oversized Pillars with Dual-Side Support for Greater Stability & Support
- Individual "Leveling Foot" on All 4 Corners
- Retractable Castors at Both Ends
- Maximum Load Capacity: 250kgs / 551lbs
