

## The New G5° Digital Experience!

€0459

*Available in Black and White options*

### Description :

The G5° Vibramatic® Power + is our new professional digital massage system with L.E.D display. It has a more accurate, adjustable frequency control and an expanded range of 0 to 60 Cycles per second, the unit also includes a new 60 minutes electronic timer.

### Applications :

- **Physiotherapy**

For soft tissue injuries, trigger point reduction, reducing muscle spasms & reducing of oedemas. Helps to quicken recovery!

Used for deep muscle massage which helps take the tiring work from daily massage techniques. Trigger point release.

- **Respiratory therapy**

Using the adjustable percussion adapter (AP209FR) the G5° system is very effective helping the drainage of bronchial secretions in COPD patients while very comfortable for the person undergoing the treatment.

Physio/Sports Therapy

Respiratory Therapy

**WARRANTY : 3 YEARS**

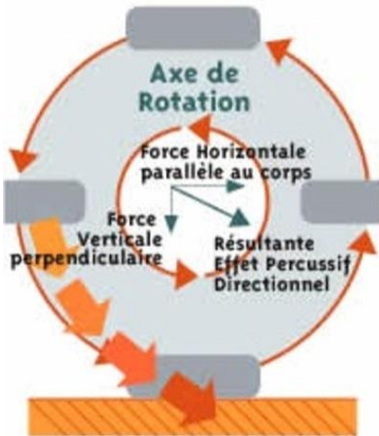

Technical specifications :

- L.E.D display
- Universal input 100 to 240V, 50/60 Hz operation
- New more powerful 24 V DC Motor – 100W – with 24V built-in power supply
- New, more accurate frequency range from 0-60 Cps
- Digital timer 0-60 minutes
- Digital speed feedback logic maintains CPS setting
- Rolling caster stand and accessory-storage-tray
